

Healthcare

❖ Reality

- ❖ Poor facility in government institutions
- ❖ Bureaucracy and Nepotism are the keys and breaking points to get healthcare
- ❖ Rural healthcare is not even existing
- ❖ People are pushed towards getting insurance
- ❖ Privitisation is the norm in healthcare

❖ Future

- ❖ Healthcare is a right of every Citizen and is free of charge
- ❖ Severe deficit of Nurses and Mid-Wife will be dealt quickly
- ❖ State will promote R&D in Phramacology and also encourage individual entrepreneurship
- ❖ State will promote immunity building instead of vaccination
- ❖ Vaccination will be voluntary
- ❖ Preventive Medicine & Hygiene will be taught from primary stage
- ❖ Sanitation & Clean Water are rights of the Citizen and will be guaranteed
- ❖ Center for Excellence & R&D Centers in different faculties of Medicine will be established in different regions
- ❖ Institutions to research and develop methods to counter bio-warfare will be developed

P.S : These have not been written by Subject Matter Experts. Any error noticed, kindly inform and correct it. Ummah has lots of Khair and we would greatly appreciate the correction and help. All of these will be implemented by technocrats and bureaucrats, only difference will be the new perspective.
